

WHAT PEOPLE ARE SAYING...

Students and educators agree that our speakers have an unparalleled ability to connect with and excite an audience. Here's what they're saying about us:

"Once in a great while, a talented speaker with a strong message comes around and students, teachers and parents don't soon forget that message. From the moment you started, we carefully observed our students. They were tuned in and they listened. Students were captivated and hung on your every word. We seldom are privileged to listen to such a gifted speaker."

- Counseling faculty, Maryvale High School, Phoenix AZ

"You are the most inspirational speakers that I have heard. Most teen speakers are just really boring and they sound like they are reading from a book, but [I liked] the way you talk and put comedy and a good sense of reality into your speech. I went in with an open mind and came out with a lot more than I expected. Thank you for giving your time."

- J.R., high school student

"Thank you for helping us make this a successful and memorable event for our students. We have had so many positive comments on the presentation. You made our Bully Prevention Rally a huge success!"

- Kathy Gillette, Intervention Specialist, Peoria, AZ

"Leon's message is remembered long after he leaves... Our program evaluations consistently identify him as a speaker they would like to hear again."

- Kirk Simmons, Tucson Police Department, National G.R.E.A.T. Chairperson

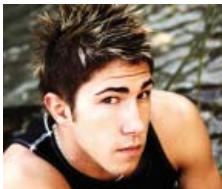

"You really got me thinking about who I am and what I choose. My mom was glad to hear that I am really thinking about my choices."

- Stephanie, junior high student

"As promised, Calvin was absolutely phenomenal. Thank you so much for helping me coordinate his appearance. He was outstanding. Your company will be first on my contact list for future speakers."

- Allison Byrd-English, Minority Student Achievement Network, Cleveland Heights, Ohio

"... Leon opened the eyes of many of this state's brightest young leaders to the responsibility of community leadership and involvement... He knew how to relate directly to the youth in attendance through his excellent humor and inspirational methods..."

- Brian Lockery, Research Analyst, AZ House of Representatives

"You are certainly a crowd pleaser! You entertained and captured your young audience's attention while delivering an invaluable message. The individual time you made for each student was impressive to our staff and an important part of the conference for our students."

- Marcia Strickland, RVI/VOCA State Coordinator, Georgia

"Wow! Thanks so much for the powerful presentation. I especially appreciated how you tailored the message for our school."

- Dale Reeves, A.G. West Black Hills High School, Olympia, Washington
